

Green Team Crew Leader Position (Full-Time, Seasonal)

Who We Are

Groundwork Jacksonville's (GWJax) mission and operations are premised on the understanding that environmental conditions are inextricably linked to the economic and social health of a neighborhood. As a result, GWJax is committed to "changing places and changing lives" through on-the-ground projects that help to transform local communities.

What You Will Do

GWJax is seeking individuals with experience in youth development to be responsible for the daily management and supervision of our Green Team Summer 2022 youth apprentices. Green Team Youth Corps is a national program that develops leadership and environmental stewardship in urban youth. Groundwork Jacksonville's Green Team Youth Corps, established in 2015, engages teens ages 13-18 from Jacksonville's urban core neighborhoods through a summer Apprenticeship and school year Fellowship. Apprentices work together and earn a stipend and service hours as they complete important projects in the community, learn valuable career and life skills, and explore natural areas and relevant topics. Learning themes include green infrastructure, environmentalism, life skills and career development, public art, stewardship, and community engagement. One Crew Leader is paired with a group of 10-11 Green Team youth apprentices and is assisted by a Youth Leader.

Along with a variety of hands-on neighborhood projects, each crew will spend time working in City of Jacksonville parks and National Park Service units within Jacksonville. For more information about the Green Team please visit <http://bit.ly/GreenTeamAbout>.

What We Seek

We hold high expectations for our youth, and to reach their full potential we require our Team Leaders to be strong role models. Ideal candidates will possess enthusiasm for working with youth, a commitment to GWJax's mission, a strong work ethic, and a desire to work outdoors.

While our organization is deeply committed to activating green space and stewardship through litter cleanups, green infrastructure, habitat restoration, and urban agriculture projects, we do not require Team Leader candidates to be well-versed in these fields. We seek candidates who are open to learning and upholding the GWJax mission.
